

Truck & Bus Radial Tire

LIMITED MANUFACTURER'S WARRANTY

[PAGE 1 OF 2]

LIMITED WARRANTY

This Limited warranty applies to the original purchaser of new Truck and Bus Radial (TBR) Tires sold by Triangle Tire USA (Triangle). An eligible tire that becomes unusable for any reason within the manufacturer's control will be replaced with an equivalent new tire on the basis set forth in this Limited Warranty.

WHO IS ELIGIBLE FOR WARRANTY COVERAGE

You are eligible for the benefits of this warranty if you meet all the following criteria:

- You are the owner or authorized agent of the owner of new Triangle Radial medium TBR tires.
- Your tires bear Department of Transportation (DOT) prescribed tire identification numbers.
- Your Triangle TBR tires have been used in accordance to the vehicle manufacturer's specifications or Triangle's recommendations.

WHAT IS COVERED UNDER THIS WARRANTY AND FOR HOW LONG

1. 50% Free Replacement Warranty

If any Triangle TBR tire covered by this warranty becomes unserviceable for any reason (see exclusions in the section entitled "WHAT THIS LIMITED WARRANTY DOES NOT COVER") during the first 50% of the original tread life (calculated by subtracting one-quarter (1/4) the difference between the original new tire tread depth and 2/32" remaining tread depth on said tire), then Triangle will replace your tire free of charge to you, plus the cost of mounting and balancing as follows:

- A. The subject Triangle tire must be replaced with a comparable new Triangle tire by an authorized Triangle TBR tire dealer.
- B. Applicable taxes and fees will be the responsibility of the owner of the vehicle.
- C. 50% free replacement applies to first quality tires only.
- D. Retreads and road hazard tires are specifically excluded.

2. Prorated Tire Replacement

If any Triangle TBR tire covered by this warranty becomes unserviceable for any reason (see exclusions in the section entitled "WHAT THIS LIMITED WARRANTY DOES NOT COVER") during the life of the original usable tread life (down to 2/32" remaining usable tread), the owner will be reimbursed on a prorated basis. Owner must pay for the mounting, balancing, taxes and fees.

HOW TO CALCULATE THE PRORATED AMOUNT

The replacement price will be calculated by multiplying the current Triangle dealer selling price by the percentage of usable original remaining tread at the time of adjustment. You pay for mounting, balancing, Federal Excise Tax and any other applicable taxes and fees for the comparable new Triangle replacement tire.

PRORATED REIMBURSEMENT EXAMPLE

If your warranty tire had an original 16/32" of usable tread depth (meaning it started with 18/32" and is considered legally worn out at 2/32") and is worn to 8/32" of usable remaining tread, you have used 50% and therefore must pay 50% of the current Triangle dealer selling price at the adjustment location (whichever is lower) for a comparable Triangle tire, plus current Federal Excise Tax applicable to the comparable new Triangle replacement tire at the time of adjustment. So, if the price of the comparable tire is \$400.00, the cost to you would be \$200.00 plus Federal Excise Tax, mounting, balancing and any other applicable taxes.

DEFINITION OF A COMPARABLE TIRE

A "comparable" new Triangle tire may either be the same line of tire or, in the event the same tire is not available, a tire of the same basic construction and with a different sidewall or tread configuration.

If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you. Any replacement tire provided pursuant to this warranty will be covered by the Triangle warranty in effect at the time of replacement.

1. Tires purchased and normally used outside the United States and Canada.
2. Tires purchased as used.
3. Tires which are misapplied due to improper fitment, insufficient speed rating, or load index, or undersized or oversized tires, use of an improper wheel, tire chain damage, misuse, tire spinning, negligence, tire alteration, or for racing or competition purposes.

17. Tires inflated with anything other than air or nitrogen.
18. Tires affected by flat spotting caused by brake lockup, improper transport, or storage.
19. Premature or irregular wear (a measured tread difference of 2/32" (1.6mm) or more across the tread on the same tire) due to vehicle mechanical deficiencies.
20. Any tires worn beyond the wear indicators (less than 2/32" remaining tread depth).
21. The cost of applicable federal, state, and local taxes.
22. Failure to follow any of the safety and maintenance recommendations or warnings contained in this publication.
23. Tire branded or marked "Non-Adjustable" (N /A) or previously adjusted.
