Surprisingly Good...

Triangle Tire USA is currently seeking distribution partners to provide high quality, innovative tires at competitive prices to the American market.

We serve the industry with an extensive line of dependable and retreadable radial truck tires, a full range of premium quality radial OTR tires, and a complete line of passenger and light truck tires, including UHP, winter tires and specialty trailer tires.

We're Building in the U.S.

On December 19, 2017, Triangle announced it will soon manufacture tires in the United States. The plant will be located in Edgecombe County in eastern North Carolina.

The first phase of manufacturing will be for consumer tires (passenger, light truck, ultra-high performance and winter tires). Phase two will commence six months later for radial truck tires. At full capacity, the new plant will produce 6 million passenger/light truck units and 1 million commercial truck tires annually.

Easy to Work With

Our objective is to be the "Premier Value Provider" to the tire industry. To this end, we are working hard to make it easy to do business with us. Our distributors and dealers can mix all product segments in one container.
